

Chemicals allowed in Australian Vineyards

Active Constituent	In Grapes
2,2-DPA-sodium (dalapon-sodium)	haloxyfop-R methyl ester
2,4-D	hexaconazole
alpha-cypermethrin	indoxacarb
amitrole + ammonium thiocyanate	iprodione
azinphos-methyl	isoxaben
azoxystrobin	maldison (malathion)
benalaxyl + mancozeb	mancozeb
benomyl	metalaxyl - M + copper hydroxide
bifenthrin	metalaxyl - M + mancozeb
boscalid	metalaxyl + copper oxychloride
bromoxynil + diflufenican	metalaxyl + mancozeb
buprofezin	metalddehyde
captan	methidathion
carbaryl	methiocarb
carbendazim	methomyl
carfentrazone-ethyl	metiram
chlormequat	myclobutanil
chlorothalonil	napropamide
chlorpyrifos	norflurazon
copper ammonium acetate	oryzalin
copper hydroxide + mancozeb	oryzalin + simazine
copper octanoate	oxadixyl + mancozeb
copper oxychloride	oxadixyl + propineb
copper silicate	oxyfluorfen
copper sulphate tribasic	paraffinic oil
copper sulphate tribasic + mancozeb	paraquat
cuprous oxide	parathion-methyl
cyanamide	penconazole
cyprodinil + fludioxonil	pendimethalin
diazinon	permethrin + petroleum oil
dichlobenil	petroleum oil
dicofol	phosphorous acid
dimethoate	procymidone
dimethomorph	propiconazole
dimethomorph + mancozeb	prothiofos
diquat	pyraclostrobin
diquat + paraquat	pyridaben
dithianon	pyrimethanil
diuron	quinoxifen
emamectin	quizalofop-P-ethyl
endosulfan	quizalofop-P-tefuryl
esfenvalerate	simazine
ethephon	spinosad
fenamiphos	spiroxamine
fenarimol	sulfur, present as polysulfide
fenhexamid	tebuconazole
fenitrothion	tebufenozide
fenoxycarb	tetraconazole
fenthion	tetradecenyl acetate + tetradecadienyl acetate
fipronil	thiram
fluzifop-P	triadimefon
fluazinam	triadimenol
flusilazole	trichlorfon
gibberellic acid	trifloxystrobin
glufosinate-ammonium	trifluralin
glyphosate-ipa	zineb
glyphosate-potassium salt	ziram
